

The Salem R-80 School District understands the importance of physical activity, play, and recreation. We work hard to provide a healthy environment for our students, staff, and all other members of our community. In an effort to continue the work being done as a part of creating healthy schools and a healthy community, Salem R-80 School District will keep all outdoor facilities open to the public outside of school hours and scheduled events. These outdoor facilities include the track, all playgrounds, the Tiger Trail, and parking lots. We encourage community members to use these facilities and hope that the availability will lead to happier and healthier lives in Salem and Dent County.
